

2016

Occupational and Environmental Health and Safety Summer Program

Who We Are

The Occupational and Environmental Health and Safety Summer Program is hosted by the professors of the Department of Epidemiology, Biostatistics and Occupational Health at McGill University. Its major goal is to guide students graduating with a B.Sc. towards a top career in Occupational and Environmental Health and Safety, and Industrial Hygiene.

Participants will receive 3 weeks of in-class instructions from reputed professors at McGill University. Students will have the opportunity to develop an in-depth practical understanding of Occupational and Environmental Health and Industrial Hygiene, with some site visits, and to experience the urban lifestyle in multicultural and cosmopolitan cities in Canada.

McGill University is one of Canada's best-known institutions of higher learning, and one of the leading universities in the world. With students coming to McGill from some 150 countries, our student body is the most internationally diverse of any research-intensive university in Canada. McGill was founded in 1821, thanks to a generous bequest by James McGill, and since then,

we've grown from a small college to a bustling university with two campuses, 11 faculties, some 300 programs of study, and more than 37,500 students. The University also partners with four affiliated teaching hospitals to graduate over 1,000 health care professionals each year.

Who Can Apply

The ideal candidate for this Summer Program is interested in the subject of Occupational and Environmental Health and Safety, and is already proficient in the English language. Students should apply for a Canadian visa to travel to Canada.

Course Date

July 25 – August 12, 2016 (Three Weeks)

Courses and Professors

The courses will be held from Monday to Friday (9h00 to 12h00 in the morning, and 13h00 to 16h00 in the afternoon).

Occupational and Environmental Health and Safety Summer Program at McGill University Medicine,
1110 Pine Ave West, Room 307, Montreal, PQ, Canada , H3A 1A3, Tel. (514) 398-6988.

Dr. Paul Héroux, Director of the Occupational Health Program, Faculty of Medicine, at McGill University, will teach courses in the field of Occupational and Environmental Health.

Drs. Paul-Émile Boileau, Pietro Gasparrini, Steve Martin, Wayne Wood and Jean-Pierre Gauvin, lecturers in the Department of Epidemiology, Biostatistics and Occupational Health, will also contribute to the Summer Program. At least three other professors from the department will make contributions to the teaching in the form of 10-15 minute presentations outlining the content of their courses. In addition, the Summer Program includes English Courses and other sessions in management, leadership and communications skills.

Local Cost

The total amount of the local cost is \$ 3800 CDN, including the application fee, 3-week passes for local public transportation, airport transportation, lodging, administration, tuition fees, study material and local meal allowance during the course period.

Please note that the cost does not include Canadian visa application fees, air tickets, insurance fees and local tours. Extra fees will be charged for arrival before July 23th or departure after August 14th if applicable.
